

WILLIE PLAYS AT WAR—HIS BOOMERANG TORPEDO

Dear Tommy—Our teacher illustrates the geography lessons by pointing out the war scenes in the East.

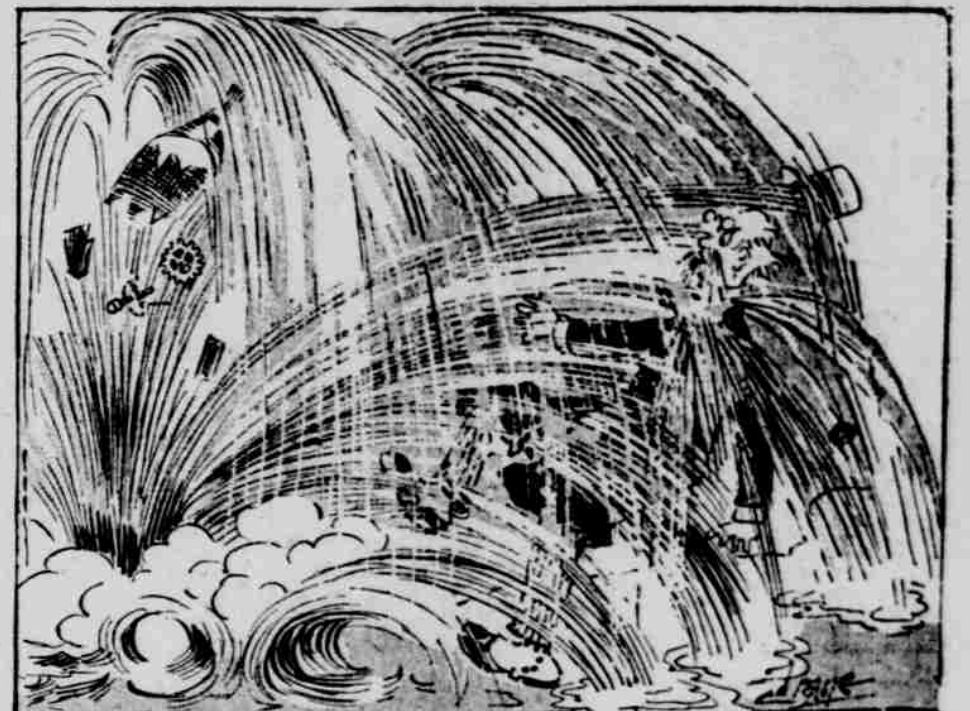

That gave me the idea of demonstrating how the Russian fleet was destroyed at Port Arthur. Teacher was very much interested, and showed me where to launch the torpedo.

I could see by the bubbles on the surface of the pond that the torpedo had swerved from its course—

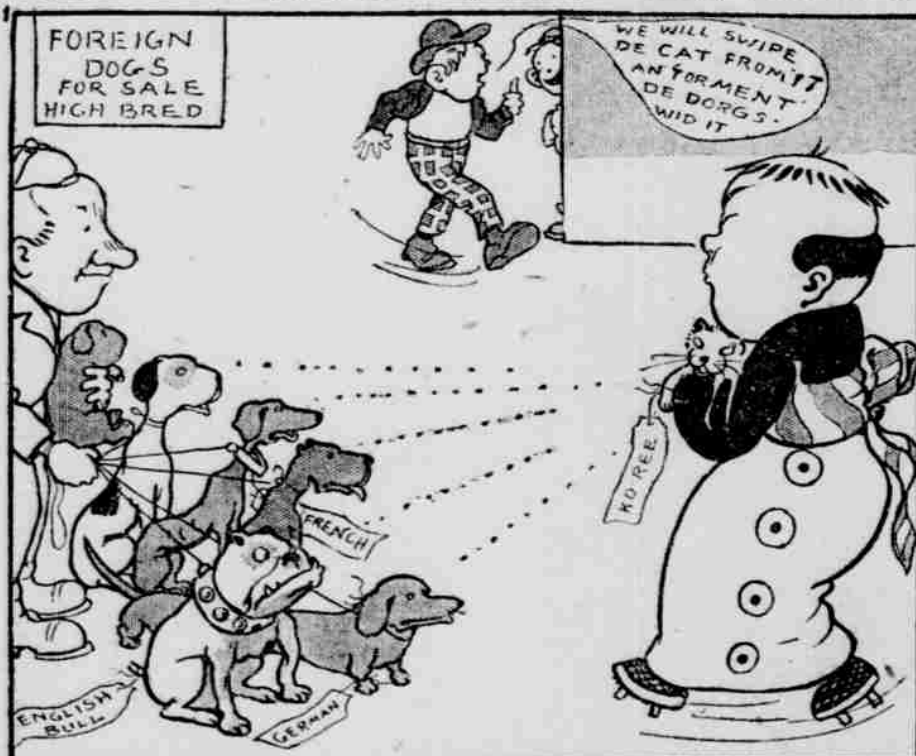

And tried to warn teacher, but he was too busy watching the Russian fleet.

Say, Tommy, when the torpedo struck the rock it made a regular tidal wave! Yours, Willie.

"IT" HAS AN ENCOUNTER WITH FOREIGN DOGS, AND WINS

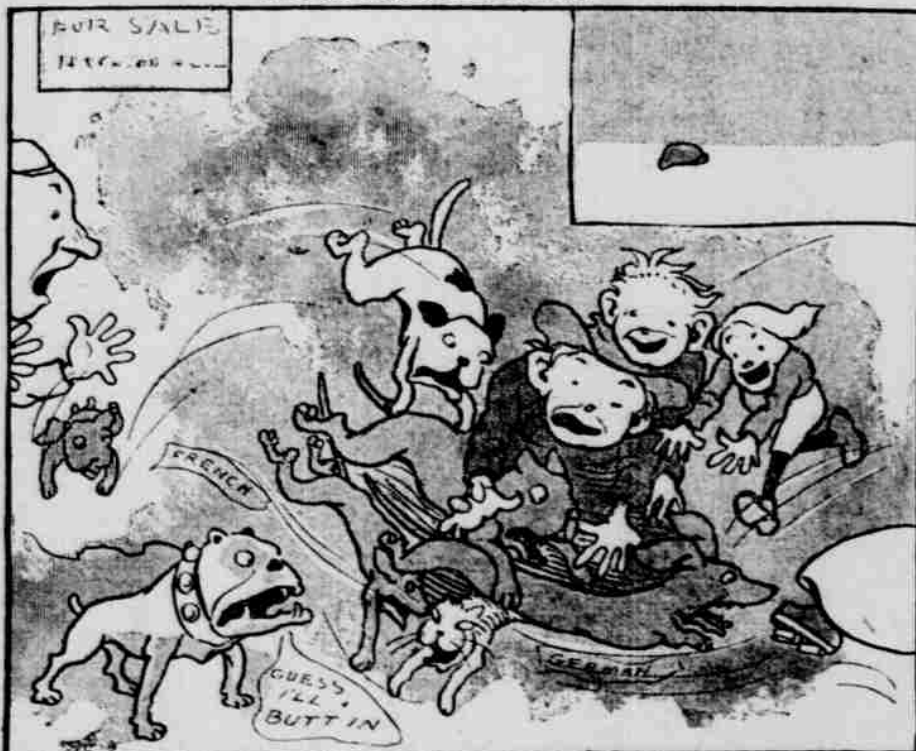

"That cat is ours for the taking!"

"If you don't drop it, we'll drop you."

Under compulsion "It" drops it.

Then the English Bull gets busy—

And stirs things up in lively style.

"It" and the cat come out with a smile.
